Supervisor Paul Biane Invests Millions on County Projects

San Bernardino-Supervisor Paul Biane won nearly \$7 million from accumulated budget savings to benefit the residents of the Second Supervisorial District. The mountain communities within Biane's District have emerged as beneficiaries of a large share this funding.

Supervisor Biane secured \$50,000 to create standardized traffic and directional signs in the Crestline/Lake Gregory community. "It is important for the drivers and the community to see clear, distinct traffic signs," Paul Biane noted. Another project funded at Supervisor Biane's request will have a lasting impact on Crestline. Twenty-five thousand dollars has been directed toward the identification and restoration of some of the community's historic stone columns built in the early days of Crestline.

By far, the largest enhancement comes from the \$750,000 for maintenance and improvements for the San Moritz Lodge at Lake Gregory. Supervisor Biane is

pleased to assist in the improvement and restoration of this famous, multipurpose facility. The San Moritz Lodge is a popular and historic meeting-place for Crestline/Lake Gregory residents and visitors.

The Crestline/Lake Gregory community received additional support from the Board of Supervisors, thanks to Supervisor Biane's leadership. The Board of Supervisors approved \$450,000 for maintenance and repair of the water slides at the Lake Gregory Regional Park. Supervisor Biane successfully sought a total of \$400,000 for the equipment and construction of a skateboard park and a playground shelter at South Beach. "Clearly, this is a great day for the Crestline community," said Biane.

The rural community of Devore will receive \$25,000 in funding for the creation and installation of neighborhood signs. Additionally, Supervisor Biane directed over \$250,000 towards the vital and necessary improvements at County Fire Station 2 in Devore. The Supervisor's request that \$200,000 be directed towards an equestrian trail system in Devore was also approved.

The Glen Helen Regional Park will receive \$87,500 for maintenance and repair of its water slides, \$350,000 for swim area renovations, and \$650,000 towards a railroad grade separation on Glen Helen Parkway.

For Lytle Creek, Supervisor Biane secured over \$234,000 for improvements to County Fire Station 20. Additionally, he procured a total of \$160,000 towards enhancement projects in Lytle Creek. Specifically, \$150,000 was set aside for the Community Center's parking lot repaving efforts, and \$10,000 for Community Center's heating, ventilation, and air conditioning system.

"I am honored to serve the residents of the Second Supervisorial District, and I look forward to continuing to work closely with residents and community leaders to improve the quality of life in the District," concluded Supervisor Biane.

A complete list of approved Second District Projects is included below:
